Default OBS Hot Keys

- Default hot keys
    - Hold CTRL (cmd?) to disable Source/Edge snapping
    - ALT (opt?) to enable cropping
    - CTRL+F (cmd+F) for fit to screen
    - CTRL+S (cmd+s) for stretch to screen
    - CTRL+D (cmd+d) for center to screen
    - CTRL+R (cmd+r) to reset a source size/position

Important to confirm that your computer will work with OBS

- Compatible with Windows, Mac, and Linux. Basic CPU requirements:
    - AMD FX series or Intel i5 2000-series **processor** (dual or 4-core preferable) or higher.
    - DirectX 10 capable graphics card.
    - At least 4 GB of RAM (recommended, but not necessary)
    - Windows 8 / 8.1 / 10
    - Mac
        - High Sierra 10.13 or later (you may need to update your OS, but make sure the other software you use is updated for 10.13 because a lot of DAWs are not yet)

- Older version are available for older OSs as well, just do a google search
